WORLD to REBUILD RURAL UKRAINE

ABOUT US

The World to Rebuild Rural Ukraine (WRRU) is a charity project dedicated to providing humanitarian aid to Ukrainian rural citizens and small family farms. Its goal is to rebuild homes and farm premises damaged by the russian full-scale war in Ukraine, focusing on restoring small agricultural production capacities that are crucial to the local and global food supply.

DONATIONS GENERATED

SINCE APRIL 2022

\$92,700

Thank you dear DONATORS: CBRE, Titan Machinery, Amity Technology, Whitman County Crop Improvement, Columbia County Ag Improvement, MHP Ukraine, Herasymenko Private Farm, Dr. Steven Van Vleet, Dr. Kelley Tilmon, Dr. Paul Bilsborrow, Tracy Smith, Whaley Whaley, Robert Johnson, SCIENCE MANAGEMENT SERVICES PTY LTD, Richard L Koca, Shaun Sullivan, Howard Dahl, Marilyn Reiher and many others.

ACHIEVEMENTS

OLEKSANDR KRYVOSHEYA'S RESILIENCE

HELP
PROVIDED

Amidst the ravages of Spring 2022 in Kyiv oblast, Oleksandr Kryvosheya's farm, «Soloviine», bore the brunt of artillery and explosions, incurring losses over UAH 1.3 million. WRRU's intervention brought a beacon of hope: a new tractor, pivotal for winter crop planting. Oleksandr's journey continues with WRRU's ongoing support and expert soil fertility consultation for his potato and carrot crops.

ACHIEVEMENTS

IRYNA SHEVCHENKO'S REBIRTH HELP PROVIDED ✓

The village of Borodianka faced occupation in Spring 2022. Amidst this turmoil, Iryna Shevchenko's barn was decimated by a rocket, sparing only eight cows. WRRU responded with compassion, transforming her barn into a functional house complete with a summer kitchen and a vital milk refrigerator, offering a new beginning.

ACHIEVEMENTS

ALLA KOKOSHA'S NEW DAWN

HELP
PROVIDED

In the wake of Kyiv's attempted capture, Alla Kokosha's family lost everything – their home, storage, and garage were reduced to rubble. Cast into despair, WRRU brought light, meticulously rebuilding Alla's house, restoring shelter and hope to her family of four.

ACHIEVEMENTS

JULIA KOVALENKO'S RECOVERY

HELP
PROVIDED

Julia Kovalenko's family in Kherson oblast witnessed their farm's heart - the storage barn - shattered by relentless shelling. Operating over 150 hectares, this loss was crippling. WRRU's efforts resurrected the warehouse, empowering the family to renew their farming life post-demining.

ACHIEVEMENTS

A HAVEN FOR HOPE

HELP
PROVIDED 

An orphanage near a military base in Kyiv oblast, sheltering 60 children, including 30 infants, reached out to WRRU for a critical need – a bomb shelter. Collaboratively, WRRU, a local farmer, and a private company crafted a sanctuary: a robust bomb shelter with a ventilation system and a protective concrete structure, ensuring safety and peace.

ACHIEVEMENTS

NATALIA MELNYCHENKO'S CHOICE OF STRENGTH HELP PROVIDED ✓

Natalia Melnychenko's family in Kherson oblast endured nine months under occupation. Post-liberation, they faced a devastated home and destroyed machinery. Prioritizing her family's agricultural future over immediate housing needs, Natalia chose a truck to revive their farming. WRRU honored her resilience, aiding in the purchase of this essential vehicle for fieldwork.

AID RECIPIENTS

OLEKSANDR ADAMENKO'S LOST HARVEST

**HELP
NEEDED** 

Oleksandr Adamenko, a 57-year-old farmer from Kherson oblast, faced devastating losses during the occupation. His farm was stripped of essential tools, from seeders to solar batteries, and his warehouse, with the previous year's yield, was burned to ashes. The family home stands bare, lacking windows, doors, and a damaged roof. WRRU plans to resurrect his 700 m² warehouse, a critical step for Oleksandr to reclaim his farming life and secure future harvests.

AID RECIPIENTS

OLEKSANDR DONCHENKO'S SHELTER OF HOPE HELP NEEDED

In the heart of Kherson oblast, Oleksandr Donchenko's warehouse, an integral part of his farming existence, was ravaged by shelling debris. With a damaged roof and façade, the structure stands in dire need of reconstruction. WRRU aims to restore this vital facility, enabling Oleksandr to continue his agricultural pursuits effectively and sustain his livelihood.

AID RECIPIENTS

ANDRII MATVIJENKO'S FIGHT FOR REBUILDING

HELP
NEEDED

The Matvienko family's world was shattered on September 9th, 2022, when a Russian tank unleashed havoc in their yard in Izium village, Kharkiv oblast. The catastrophic event destroyed their barn, equipment, garage, two houses, and claimed the lives of their livestock. Now, Andrii, reliant on the meager income from milk sales, faces the harsh reality of insufficient funds for reconstruction. With winter looming, WRRU's immediate goal is to rebuild their home, providing shelter and a beacon of hope in these trying times.

MUCH MORE ARE STILL IN NEED

FAO'S REPORT ON SMALL-SCALE FARMERS

The war has led to a significant decline in Ukraine's small-scale farming, with losses exceeding USD 3.85 billion. This severe impact, confirmed by a FAO survey of 1,927 producers, includes an 8% decrease in small-scale farming operations due to challenges like farm closures, loss of farmland control, and the death of farm owners.

UKRAINE'S AGRICULTURAL LOSSES

Only the first eight months of war inflicted direct losses of \$6.6 billion on Ukrainian agribusiness, 23% of the sector's total value, as reported by the Kyiv School of Economics (KSE) Agrocenter. Taken the Ukraine's pre-war capability to feed up to 600 mln by the end of last year 138 000 000 lost their food supply.

FIVE REASONS TO HELP VIA WRRU

1 With the Board of Reputable Ambassadors, whose approval is required for any spendings we have proven to be a reliable and transparent instrument of providing direct vital help to those most in need.

2 Having a wide network of partners throughout Ukraine we can quickly collect the necessary unbiased information about the potential aid recipients who are objectively in need. «We don't collect the papers, we collect the facts.» That is why our aid recipients say: «I would never believe such major good deeds can be made so easily and so quickly»

3 WRRU doesn't give off cash. Instead we provide the services of rebuilding/repurchasing what they owned before the russians came. WRRU doesn't upgrade. The people get back the very same ownership, which was ruthlessly taken from them by russian fascist.

EDUCATIONAL SUPPORT

We have held a number of educational agricultural events under the auspices of «World to Rebuild Rural Ukraine» charity fundraising project.

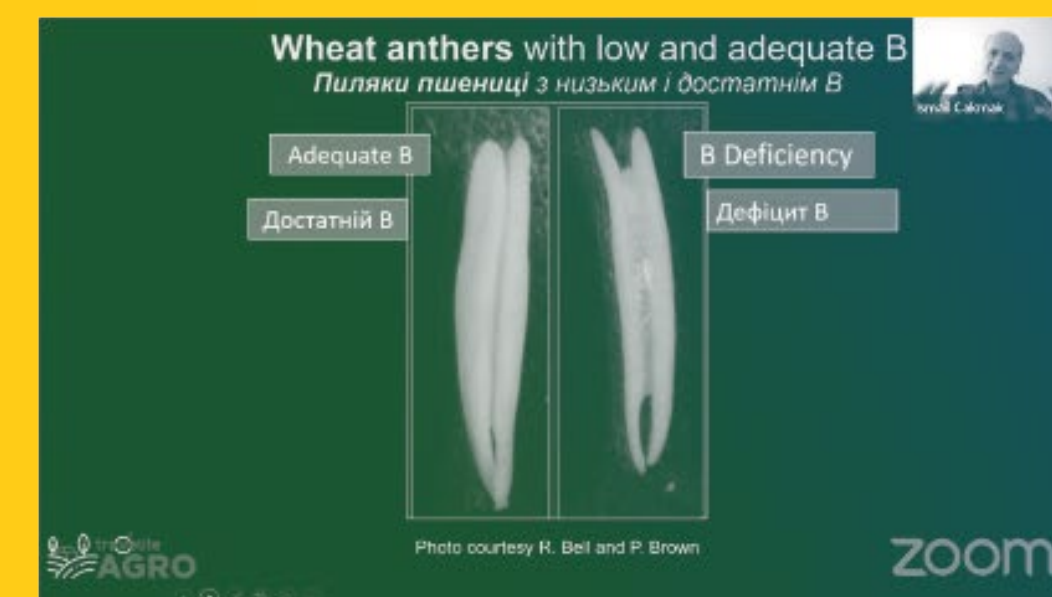

134 farmers and agricultural workers were trained and received access to **3 agricultural events** and **20 educational video courses** – **207 hours of useful information** in total.

NEWS BI-WEEKLY UPDATE ON UA

Every fortnight, we gather and disseminate updates on the rural Ukrainian situation. The more individuals are informed firsthand, the greater the collective support we can extend to those in rural Ukraine facing challenges.

Thus far, we have:

- Conducted 25 online meetings addressing the current situation in Ukraine.
- Developed and distributed 23 informative PDF files to a global audience.

We invite you to join our open meeting, where we discuss the Ukrainian situation, report on WRRU project milestones, and share the stories of the rural Ukrainians we assist. Subscribe now for exclusive updates on the situation in Ukraine. Your support can make a meaningful difference: <https://www.wrru.org/live>

SUPPORT THE UKRAINIAN MILITARY

DONATE OR SELL PICK-UP TRUCKS

The Ukrainian military urgently requires pick-up vehicles for the transportation of mobile machine guns designed to intercept Iranian drones. These vehicles are also indispensable for the logistics of moving supplies between cities, towns, facilitating the evacuation of families with their essential belongings, and providing crucial military and convoy protection.

Visit <https://www.wrru.org/pick-ups> to contribute to this vital cause. We are seeking donations or discounted sales of pick-up or 4x4 trucks, whether they are new, pre-used, or old.

INFORMATIONAL TOUR TO UKRAINE

The WRRU team is excited to present a week-long charitable informational tour, commencing and concluding in Poland. Our carefully curated route encompasses locations in Ukraine that were once affected by war but have now been restored to safety, mirroring the resilience of the entire country.

Join our group of volunteers traveling to Ukraine and immerse yourself in the reality on the ground. Connect with the local people, engage with farmers, and converse with village citizens. This is an opportunity to witness firsthand the positive transformations and the spirit of recovery in these communities. Your presence and support can make a meaningful difference.

For detailed information and to be part of this impactful experience, visit <https://www.wrru.org/information-tour-to-ukraine>.
